TRAINING FOR PORT TUG DRIVERS

Are there any training companies that provide official certificated training for Port Tug Drivers who drive Terberg type tractors and load / unload freight trailers onto RORO Ferries?

Response from Port Training Services

“We provide externally accredited NPORS training for Tug drivers, terminal tractor units or tow tractors which are all the same depending on the terminology the port uses for the same type of Terberg unit. See course information attached – LINK to N210 19.pdf”

Response received from Steven Farrow, DFDS Seaways PLC

“We at DFDS Seaways Immingham conduct the training internally with myself and another training officer, we run of a category ITSSAR 1 internal only instructor. We also use a free-lance trainer who comes to our site who can deliver this training.

LA Solutions - <https://la-solutions.net/>

I have personally studied NEBOSH certificate with Lance Alcock and can confirm his credentials and knowledge.”

Response received from Poole Harbour Commissioners

They do this in house and all their trainers are accredited to complete this.
