

PSS VIP Dinner *New for 2024*

18 June 2024, London

This evening event brings together Chief Executives from the biggest ports in the UK for an intimate dinner, alongside discussions on some of the key issues affecting port safety today, and for the future. A keynote after dinner speaker will entertain and inform guests, while the sectors leaders give their own insights.

This inaugural event will focus on the theme of “*The value of data to improve safety*” and our guest speaker will be Mark Gallagher. Mark has spent over 30 years in Formula 1 motor racing and was instrumental in using data to revolutionise the sport and dramatically improve race safety.

The event includes a three-course meal at Searcys at the Gherkin, overlooking the London skyline.
